## 4 Days - 10 Dives

Menjangan Island (Deer Island), in Bali's Northwest, is part of the West Bali National Park—Bali's only protected nature reserve. Surrounded by dramatic drop-offs covered in colorful giant sea fans, it's a hotspot for schools of fish and occasional sightings of reef sharks, eagle rays, or even whale sharks. To the Northeast, Tulamben is a must-visit for divers, famous for the USAT Liberty shipwreck on its pebble and black sand beaches—a world-class dive by day and even more magical at night. Spend a third day in Padang Bai for rockier, adventurous dives and chances to spot pelagic species. Finally, cap your trip with a fourth day at Nusa Penida, swimming with manta rays and (seasonally) hunting for the legendary Mola Mola sunfish!
