

Best of Bali

9 Days - 24 Dives

Our most complete Dive Package. Recommended for divers addicted to nitrogen! A program of 9 days with 24 dives around Bali -- the variety will amaze you! Designed for dive enthusiasts or those who want to fully explore Balinese waters. Unlike our Safari (fewer dives and including land and cultural visits) the goal with the Best of Bali is to be underwater as much as possible. We provide seamless logistics and organization so that your two or three dives per day go smoothly and leave time to enjoy your time out of the water as well. In this nine-day program we offer the opportunity to dive all around Bali. From the Menjangan park with its magnificent drop-offs to the mysteries of Secret Bay in Gilimanuk, from the wreck of the Liberty in Tulamben to Macro dives in the surrounding area and in Amed. You will have two days in Padang Bai in search of pelagic and other macro fauna and finally we will finish in style with the manta rays and mola-mola (in season) of Nusa Penida. If you want to make the most of your diving stay in Bali, this is the option for you!
